NOURISH THEM FROM THE INSIDE OUT

Kittens have very complex nutritional needs. They can be weaned from milk between 4 and 8 weeks, after which they need carefully balanced, nutritious and antioxidant-rich food. Cats are obligate carnivores, so you must provide a food which is meat or fish based, and which has an ample source of taurine.

Kitten food should be formulated with higher amounts of protein to help your kitten grow, as well as increased calcium to support their growing bones.

Keep plenty of fresh, clean water available for your kitten to access easily. When it comes to feeding routines, you can choose to feed your kitten at certain intervals during the day, or do a mixture of scheduled feeding and free grazing - provided you are confident your kitten is eating and drinking enough.

KITTEN

Suitable for kittens from the age of 6 weeks onwards, Go Native Kitten Food is the perfect nutritional start in life for your furry friend. Made with 80% single source meat, all provided from sustainable, local sources in Ireland, our kitten food is made with added probiotics to support their developing immune system.

We use natural Irish ingredients, carefully chosen to give your kitten the very best, from the get go.

COMPOSITION: 88% Chicken, (Freshly Prepared Chicken, Dehydrated Chicken, Chicken Fat), Sweet Potato, Potato, Pea Starch, Whole Linseed, Dried Seaweed, Brewer's Yeast, Hydrolysed Protein, Psyllium Husk, Pea Fibre, Sodium Chloride, Chicory Inulin, Yeast Extract, Dried Apple, Dried Blueberry (5% fresh blueberry equivalent), Dried Rosehip (5% fresh rosehip equivalent), Glucosamine Hydrochloride (1000mg), MSM (Methylsulfonylmethane) (1000mg/kg) **BOTANICALS:** Alfalfa, Dried Cranberry, Dried Carrot, Dried Ginger, Dried Marigold, Oregano, Dried Broccoli, Turmeric, Yucca Schidigera **ANALYTICAL CONSTITUENTS:** Protein 42.00%, Fat Content 22.00%, Crude Fibre 2.70%, Crude Ash 9.50%, Moisture (max) 7.50%, Calcium 1.70%, Phosphorous 1.10%, Magnesium 0.10%, Omega-6 4.20%, Omega-3 1.10% **ADDITIVES, NUTRITIONAL ADDITIVES** - **VITAMINS:** Vitamin A 15,000i.u./kg, Vitamin D3 1,200i.u./kg, Alpha tocopherol Acetate (Vit E) 150i.u./k, Taurine 2,250mg/kg **TRACE ELEMENTS:** Copper (Copper(II) Sulphate Pentahydrate) 2.0mg/kg, Copper (Copper(II) Chelate of Glycine Hydrate) 0.5mg/kg, Iron (Iron Sulphate Monohydrate) 105mg/kg, Manganese (Manganese Oxide) 8mg/kg, Manganese (Manganese Chelate of Glycine Hydrate) 2mg/kg, Zinc (Zinc Chelate of Glycine hydrate) 50mg/kg, Iodine (Calcium iodate anhydrous) 0.5mg/kg, Selenium (Sodium Selenite) 0.16mg/kg, Selenium (L-Selenomethionine) 0.04mg/kg **AMINO ACIDS:** DL-Methionine 2000mg/kg **GUT FLORA STABILISERS:** 4b1707 Enterococcus Faecium DSM 10663 NCIMB 10415 1 x 10⁹cfu/kg **ANTIOXIDANTS, PRESERVATIVES:** (Preserved with tocopherol rich extracts of natural origin).

- Immune boosting blueberries with antioxidant properties.
- Rosehips to reduce inflammation.
- Added taurine to aid brain development.
- Vitamin D3 and added calcium for bone and joint health.

ADULT CAT

Our Go Native Cat Chicken is made with free-run chicken straight from our trusted, local suppliers. We are so proud to use only the finest Irish ingredients throughout our recipes, which we proudly make at our own facility at home in County Kilkenny, Ireland. Our chicken recipe is made with locally grown asparagus and tomato for an extra boost of antioxidant goodness.

- Added taurine promotes healthy heart and liver function
- Asparagus for enhanced digestion
- Cellulose fibers help prevent hairballs transition to the gut
- Omega 3 & 6 with added chelated zinc for skin & coat health

COMPOSITION: 83% Chicken, (Freshly Prepared Chicken, Dehydrated Chicken, Chicken Fat), Sweet Potato, Potato, Pea Starch, Whole Linseed, Dried Seaweed, Brewer's Yeast, Hydrolysed Protein, Psyllium Husk, Pea Fibre, Sodium Chloride, Chicory Inulin, Yeast Extract, Dried Apple, Dried Asparagus (5% fresh Asparagus equivalent), Dried Tomato (5% fresh tomato equivalent), Glucosamine Hydrochloride (1000mg), MSM (Methylsulfonylmethane) (1000mg/kg) **BOTANICALS:** Alfalfa, Dried Cranberry, Dried Blueberry, Dried Carrot, Dried Ginger, Dried Marigold, Oregano, Dried Rosehip, Dried Broccoli, Turmeric, Yucca Schidigera **ANALYTICAL CONSTITUENTS:** Protein 37.00%, Fat Content 18.00%, Crude Fibre 3.60%, Crude Ash 9.00%, Moisture (max) 7.50%, Calcium 1.70%, Phosphorous 1.10%, Magnesium 0.10%, Omega-6 3.60%, Omega-3 1.10% **ADDITIVES, NUTRITIONAL ADDITIVES - VITAMINS:** Vitamin A 15,000i.u./kg, Vitamin D3 1,200i.u./kg, Alpha tocopherol Acetate (Vit E) 150i.u./kg, Taurine 2,250mg/kg **TRACE ELEMENTS:** Copper (Copper(II) Sulphate Pentahydrate) 2.0mg/kg, Copper (Copper(II) Chelate of Glycine Hydrate) 0.5mg/kg, Iron (Iron Sulphate Monohydrate) 105mg/kg, Manganese (Manganese Oxide) 8mg/kg, Manganese (Manganese Chelate of Glycine Hydrate) 2mg/kg, Zinc (Zinc Chelate of Glycine hydrate) 50mg/kg, Iodine (Calcium iodate anhydrous) 0.5mg/kg, Selenium (Sodium Selenite) 0.16mg/kg, Selenium (L-Selenomethionine) 0.04mg/kg **AMINO ACIDS:** DL-Methionine 2000mg/kg **GUT FLORA STABILISERS:** 4b1707 Enterococcus Faecium DSM 10663 NCIMB 10415 1 x 10⁹cfu/kg **ANTIOXIDANTS, PRESERVATIVES:** (Preserved with tocopherol rich extracts of natural origin).

ADULT CAT

Our Go Native Cat Duck recipe is made with 84% free-run duck from Irish farms. Free from grain and gluten, this delicious food for adult cats is packed with antioxidants to protect your cats health and support their condition and long-term health. Thanks to our revolutionary NFMS packaging, your cat's food comes to them as fresh as the day it was made, right at home in County Kilkenny.

- Added probiotics for digestive and immune health
- Blended with spinach, a powerful antioxidant
- Cranberries aid urinary tract health
- With added glucosamine and MSM to support healthy bones & joints

COMPOSITION: 84% Duck (Freshly Prepared Duck, Dehydrated Duck, Duck Fat), Sweet Potato, Potato, Pea Starch, Whole Linseed, Dried Seaweed, Brewer's Yeast, Hydrolysed Protein, Psyllium Husk, Pea Fibre, Sodium Chloride, Chicory Inulin, Yeast Extract, Dried Apple, Dried Cranberry (5% fresh cranberry equivalent), Dried Spinach (5% fresh spinach equivalent), Glucosamine Hydrochloride (1000mg), MSM (Methylsulfonylmethane) (1000mg/kg) **BOTANICALS:** Alfalfa, Dried Blueberry, Dried Carrot, Dried Ginger, Dried Marigold, Oregano, Dried Rosehip, Dried Fennel, Dried Broccoli, Turmeric, Yucca Schidigera **ANALYTICAL CONSTITUENTS:** Protein 40.00%, Fat Content 19.00%, Crude Fibre 3.40%, Crude Ash 9.50%, Moisture (max) 7.50%, Calcium 1.80%, Phosphorous 1.40%, Magnesium 0.10%, Omega-6 2.95%, Omega-3 1.05% **ADDITIVES, NUTRITIONAL ADDITIVES - VITAMINS:** Vitamin A 15,000i.u./kg, Vitamin D3 1,200i.u./kg, Alpha tocopherol Acetate (Vit E) 150i.u./k, Taurine 2,250mg/kg **TRACE ELEMENTS:** Copper (Copper(II) Sulphate Pentahydrate) 2.0mg/kg, Copper (Copper(II) Chelate of Glycine Hydrate) 0.5mg/kg, Iron (Iron Sulphate Monohydrate) 105mg/kg, Manganese (Manganese Oxide) 8mg/kg, Manganese (Manganese Chelate of Glycine Hydrate) 2mg/kg, Zinc (Zinc Chelate of Glycine hydrate) 50mg/kg, Iodine (Calcium iodate anhydrous) 0.5mg/kg, Selenium (Sodium Selenite) 0.16mg/kg, Selenium (L-Selenomethionine) 0.04mg/kg **AMINO ACIDS:** DL-Methionine 2000mg/kg **GUT FLORA STABILISERS:** 4b1707 Enterococcus Faecium DSM 10663 NCIMB 10415 1x10⁹cfu/kg **ANTIOXIDANTS, PRESERVATIVES:** (Preserved with tocopherol rich extracts of natural origin).

ONLY THE FINEST FROM LAND AND SEA

All of the ingredients from our Go Native Cat Food come proudly from trusted farms around Ireland. We've forged relationships with growers around Ireland for years to make sure that only the very best makes it into our Go Native recipes.

We use only free-run poultry for our Chicken and Turkey recipes to provide a great taste with 80% meat in every bowl.

Working with local fisheries, we are able to support communities around Ireland as well as providing wild organic Salmon, straight from the seas off the Irish coast.

Our relationships with our local growers and suppliers is of the utmost importance to us - it's the reason we can back every single bowl of food that we make in Kilkenny.

SUSTAINABILITY PRACTICES

Each bag of Go Native Cat food is made in County Kilkenny in Ireland, where the Connolly family have been feeding animals since 1908.

We source the main ingredients for Go Native from local farmers and growers. This helps us reduce our carbon footprint and support local communities.

In 2014 we began developing an onsite wetland which naturally filters wastewater, stores carbon and supports high level of biodiversity of plant life, animals and insects.

Every year families of Whopper swans make the journey from Iceland to winter with us and enjoy the natural habitat which we have set aside for conservation.

Each bag of Go Native Cat food is fully recyclable. In addition, we use NFMS packaging to keep the food fresher for longer, reducing product and packaging waste for a cleaner environment.

STERILISED CAT

Our Go Native Cat Turkey recipe for sterilised cats is specially balanced to provide your cat with the protein they need with lowered levels of fat. This balanced recipe gives your cat all the energy and goodness they need to stay healthy and happy with the delicious taste of free-run Irish turkey, straight from local farms. Rich in beta-carotene and fiber for digestive support.

- Formulated with lower fat to maintain a healthy weight
- Cellulose fibers help prevent hairballs transition to the gut
- Vitamin D3 and calcium for bone and joint health
- Cranberries aid urinary tract health

COMPOSITION: 85% Turkey (Freshly Prepared Turkey, Dehydrated Turkey, Turkey Fat), Sweet Potato, Potato, Pea Starch, Whole Linseed, Dried Seaweed, Brewer's Yeast, Hydrolysed Protein, Psyllium Husk, Pea Fibre, Sodium Chloride, Chicory Inulin, Yeast Extract, Dried Apple, Dried Carrot (5% fresh carrot equivalent), Dried Fennel (5% fresh fennel equivalent), Glucosamine Hydrochloride (1000mg), MSM (Methylsulfonylmethane) (1000mg/kg) **BOTANICALS:** Alfalfa, Dried Cranberry, Dried Blueberry, Dried Carrot, Dried Ginger, Dried Marigold, Oregano, Dried Rosehip, Dried Spinach, Dried Broccoli, Turmeric, Yucca Schidigera **ANALYTICAL CONSTITUENTS:** Protein 39.00%, Fat Content 14.00%, Crude Fibre 3.50%, Crude Ash 9.50%, Moisture (max) 7.50%, Calcium 1.70%, Phosphorous 1.20%, Magnesium 0.10%, Omega-6 2.90%, Omega-3 0.90% **ADDITIVES, NUTRITIONAL ADDITIVES - VITAMINS:** Vitamin A 15,000i.u./kg, Vitamin D3 1,200i.u./kg, Alpha tocopherol Acetate (Vit E) 150i.u./k, Taurine 2,250mg/kg **TRACE ELEMENTS:** Copper (Copper(II) Sulphate Pentahydrate) 2.0mg/kg, Copper (Copper(II) Chelate of Glycine Hydrate) 0.5mg/kg, Iron (Iron Sulphate Monohydrate) 105mg/kg, Manganese (Manganese Oxide) 8mg/kg, Manganese (Manganese Chelate of Glycine Hydrate) 2mg/kg, Zinc (Zinc Chelate of Glycine hydrate) 50mg/kg, Iodine (Calcium iodate anhydrous) 0.5mg/kg, Selenium (Sodium Selenite) 0.16mg/kg, Selenium (L-Selenomethionine) 0.04mg/kg **AMINO ACIDS:** DL-Methionine 2000mg/kg **GUT FLORA STABILISERS:** 4b1707 Enterococcus Faecium DSM 10663 NCIMB 10415 1x10⁹cfu/kg **ANTIOXIDANTS, PRESERVATIVES:** (Preserved with tocopherol rich extracts of natural origin).

STERILIZED CAT

STERILIZED CATS

Sterilized cats tend to have a slower metabolism, making them prone to weight gain.

Opting for recipes with probiotics can be beneficial in order to support a healthy microbiome.

Your sterilised cat needs a careful balance of protein, fat and carbohydrates in their food to maximise muscle fitness and ensure that their weight remains healthy.

Sterilised cats can suffer from urinary issues, so choosing a recipe which can help to combat this through the choice of ingredients like cranberry is key.

Bursting with flavour and goodness, our Salmon recipe is made especially to cater to sterilised cats. This highly palatable recipe provides your cat with ample omegas 3 and 6 for their development and to safeguard their lifelong health. Our Go Native Cat Salmon is made with pumpkin and kale to provide antioxidant support, coming straight to us from our local suppliers around Ireland.

- Cellulose fibers help prevent hairballs transition to the gut
- Formulated for lower urine pH with reduced magnesium to help protect the urinary tract
- Rosehips help reduce inflammation
- Vitamin D3 and calcium for bone and joint health

COMPOSITION: 85% Salmon (Freshly Prepared Salmon, Dehydrated Salmon, Salmon Oil), Sweet Potato, Potato, Pea Starch, Whole Linseed, Dried Seaweed, Brewer's Yeast, Hydrolysed Protein, Psyllium Husk, Pea Fibre, Sodium Chloride, Chicory Inulin, Yeast Extract, Dried Apple, Dried Pumpkin (5% fresh pumpkin equivalent), Dried Kale (5% fresh kale equivalent), Glucosamine Hydrochloride (1000mg), MSM (Methylsulfonylmethane) (1000mg/kg) **BOTANICALS:** Alfalfa, Dried Cranberry, Dried Blueberry, Dried Carrot, Dried Ginger, Dried Marigold, Oregano, Dried Rosehip, Dried Spinach, Dried Broccoli, Turmeric, Yucca Schidigera **ANALYTICAL CONSTITUENTS:** Protein 42.00%, Fat Content 13.00%, Crude Fibre 3.80%, Crude Ash 10.00%, Moisture (max) 7.50%, Calcium 1.80%, Phosphorus 1.60%, Magnesium 0.10%, Omega-6 0.90%, Omega-3 3.20% **ADDITIVES, NUTRITIONAL ADDITIVES - VITAMINS:** Vitamin A 15,000 i.u./kg, Vitamin D3 500 i.u./kg, Alpha tocopherol Acetate (Vit E) 150 i.u./k, Taurine 2,250mg/kg **TRACE ELEMENTS:** Copper (Copper(II) Sulphate Pentahydrate) 2.0mg/kg, Copper (Copper(II) Chelate of Glycine Hydrate) 0.5mg/kg, Iron (Iron Sulphate Monohydrate) 105mg/kg, Manganese (Manganese Oxide) 8mg/kg, Manganese (Manganese Chelate of Glycine Hydrate) 2mg/kg, Zinc (Zinc Chelate of Glycine hydrate) 50mg/kg, Iodine (Calcium iodate anhydrous) 0.5mg/kg **AMINO ACIDS:** DL-Methionine 2000mg/kg **GUT FLORA STABILISERS:** 4b1707 Enterococcus Faecium DSM 10663 NCIMB 10415 1 x 10⁹ cfu/kg **ANTIOXIDANTS, PRESERVATIVES:** (Preserved with tocopherol rich extracts of natural origin).

PACKED WITH 80% MONO PROTEIN MEAT

Meat plays a critical role in a cat's diet due to their evolution as obligate carnivores. Cats have unique nutritional requirements that are best met through a diet rich in animal-based proteins.

Cats require a higher proportion of protein in their diet compared to many other animals. The protein in meat provides essential amino acids that are vital for their overall health, including muscle development, immune function, and skin and coat health.

Taurine is an amino acid found in high amounts in animal tissues, especially meat. It is crucial for a cat's heart health, vision, and overall well-being.

Cats have a short digestive tract and lack the necessary enzymes to efficiently break down plant-based carbohydrates. Meat is easier for them to digest and absorb nutrients from.

Go Native is made with 80% meat, with added prebiotics and essential vitamins and minerals to provide your cat with an exceptional diet which tastes as good as it smells!

BENEFITS OF PROBIOTICS IN CAT FOOD

Probiotics are beneficial microorganisms that promote a healthy balance of gut bacteria. Probiotics help maintain a balanced gut microbiome in cats, reducing the risk of digestive issues such as diarrhea, constipation, and irritable bowel syndrome. They enhance nutrient absorption and overall digestive efficiency.

Probiotics stimulate the immune response in the gut, aiding in the defense against infections and diseases. They can also help reduce the incidence of food allergies by promoting a healthier gut lining. This can be particularly beneficial for cats prone to food sensitivities and intolerances.

Probiotics have been associated with reduced stress-related digestive issues in cats. They can help maintain gut health during times of stress, such as moving, travel, or changes in routine.

FEEDING GUIDELINES AND INTRODUCING YOUR CAT TO GO NATIVE

Introducing your cat to Go Native Cat Food should be done gradually to minimize any digestive upset. Start by mixing a small amount of the new food with your cat's current diet. Over the course of 7-10 days, gradually increase the proportion of Go Native while decreasing the old food. Observe your cat's reaction during this transition period.

SUGGESTED FEEDING GUIDE*

Cat Type		Daily Feeding Amount (g/day)
Kitten Age	6-10 weeks	22-58
	10-20 weeks	58-76
	20-30 weeks	76-90
	30-52 weeks	90-150
Adult Weight	2kg	30
	5kg	58
	10kg	107
	Pregnant	90-180
	Lactating	180-320

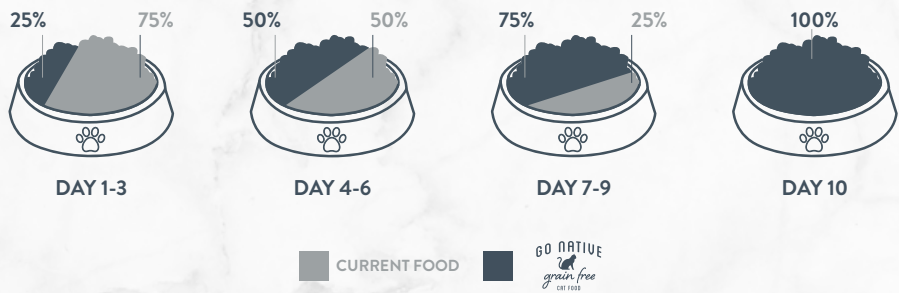

Always ensure fresh drinking water is available to your cat at all times. Suitable for cats from 6 to 8 weeks and older.

CALORIES
405 kCals/100g

*Example feeding guide only – please refer to the back of bag for variety specific advice.

INTRODUCING YOUR CAT TO GO NATIVE

When changing your cat's food to Go Native, do so by gradually mixing the new food with the old food over a period of several days.
