FULLY TRACEABLE, SUSTAINABLY
FARMED BY IRISH SUPPLIERS

Connolly's
RED MILLS
SINCE 1908

From our farm... to your kitchen

Every year after the harvest, our trusted local farmers bring us grain which we use to make our poultry feeds

Our poultry feed is given to free-run chickens and ducks in Donegal and in farms across Ireland and beyond

We've been working with local farmers for generations in order to source natural, Irish ingredients fresh from the farms that we know and trust to make our pet food.

Fresh-caught organic herring and salmon from the North Atlantic waters just off of Donegal go into our Go Native food, provided by Irish fisheries and local fishermen.

Our on-site lab in Goresbridge, Kilkenny, provides a state-of-the-art environment for us to run our many rigorous quality control tests

We use a unique Nutrient Fresh Manage System in our packaging, which uses 7 tiers of natural preservation to keep Go Native fresh as the day it was made for longer.

We conserve the local environment around us in Goresbridge, Kilkenny through our protected wetland habitat, an area of biodiversity that provides homes to whooper swans

From our family to yours

The Connolly family has been producing world-class food for animals for over a hundred years. Our food is all made at home in County Kilkenny, nestled among the rolling green fields and pastures of the rich Irish countryside.

Connolly's Red Mills has been creating wholesome, natural, locally sourced food for animals since 1908. It was in the 1980s that Bill Connolly began the journey of adding pet food into the highly regarded Red Mills offerings. Bill set to work to create a food worth of his beloved family pets: Caesar, a German pointer, and Pharaoh, a springer spaniel.

It's because of this love of dogs that Go Native is made from locally sourced lush vegetables, botanicals, as well as free-run Irish poultry and fresh, organic fish. Go Native is here to give your dog a fine dining experience, every time.

The Connolly family

GO NATIVE
grain free
DOG FOOD

Our Premium Ingredients

When it comes to Go Native, we never compromise on quality. All our delicious ingredients come from fully traceable and sustainable sources. We are proud of our Irish ingredients, which come to us directly from the local farmers with whom we have formed strong bonds of friendship and trust over the years. The freshest vegetables, the lushest botanicals, and the very best superfoods all come together in our Go Native recipes to create the delicious meals that your dog deserves – the very best Ireland has to offer.

Go Native contains added glucosamine and chondroitin for added support for healthy bones and joints, as well as boasting a mono meat source to provide a delicious and protein-rich basis for your dog's meals. We carefully balance calcium and phosphorous together for the healthiest recipe for your dog to support healthy growth. Our grain-free pet food is made to be easy to digest, even for sensitive tummies.

Co. Kilkenny, Ireland

Why Go Native?

Go Native is a grain-free, gluten-free pet food which utilises the cream of the crop where it comes to delicious Irish ingredients. With free-run poultry, fresh-caught fish, along with superfoods and vitamins galore, Go Native is available in many flavours and varieties to suit every dog, no matter their taste or needs.

Go Native provides a high-quality diet, which can contribute to your dog's long and healthy life. We are proud that Go Native is an expert-led pet food, perfectly balanced to provide healthy and delicious meals that deliver all the nutrients and vitamins your dog needs to maintain the very best condition possible.

Go Native is free of wheat, maize, soy, and corn, ensuring a low allergy risk, and is ideal for dogs with sensitive stomachs, as well as using a mono-protein source from Irish fish or fowl.

With varieties to suit every life stage, we know that you'll find the perfect food within our range.

ANTIOXIDANTS: PRESERVATIVES:

Preserved with tocopherol rich extracts of natural origin.

Go Native Puppy

What you feed your dog during puppyhood has a deep impact on their condition throughout their life. Choosing a balanced, healthy food for your puppy is key when it comes to safeguarding them from potential weight and health issues later in life.

Go Native Puppy Food has been crafted from the best ingredients possible, with organic Irish salmon and antioxidant rich spinach and ginger from Irish farms to form a delicious meal your pup will love. Our small kibble formulation is perfect for your pup as they grow up.

Our new Go Native Puppy Food comes from our popular Go Native Duck flavour and contains delicious free-run Irish duck for your puppy to enjoy, as well as a recipe composed with apple and cranberry. Duck is a highly digestible protein, perfect for little tummies, and the recipe is rich in key amino acids to support your puppy's health.

Go Native Small Kibble

Our Go Native Small Kibble is the best option for your small breed dog. Formulated to the same high standard as the rest of the Go Native range, our Small Kibble provides peace of mind for owners of smaller dogs and gives your small dog a more comfortable dining experience.

Go Native Puppy

Our puppy food is rich in goodness, with plenty of vitamins, minerals, and omega oils to ensure your puppy's long-term health. It contains glucosamine and chondroitin for healthy bones and joints, as well as prebiotics for gut health, and has been designed with a hypoallergenic recipe for a lower allergy risk.

25	584g	499g	394g	369g
30	669g	559g	439g	419g

* We recommend feeding Go Native Organic Salmon with Spinach & Ginger Adult variety or any of the other 3 in the Go Native range.

HOW TO CHANGE OVER

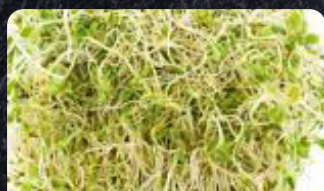

When introducing a new diet, it's important that it's done gradually. We recommend that you do this over a 10 day period, as outlined below, by mixing your dog's current food with Go Native so that your dog's digestive system adjusts to the new food.

- You will typically feed less Go Native than other dog foods owing to its nutritionally dense content with 70% meat content.
- We recommend you try to feed your dog at the same time each day.
- While it's not always possible, it is better to feed your adult dog in two feeds per day rather than just one, especially for large breeds. However, be vigilant with the amount of food you give them.
- Feed puppies from 6 weeks onwards, 3 times per day until the age of 6 months, then reduce to twice per day.
- Go Native products should be stored out of reach of children in a cool dry place below 25°C and out of direct sunlight.
- Go Native Treats are suitable at any time as a snack or reward.
- Go Native Treats and Dental Super Sticks are suitable for dogs 6 months and older.

Combining the best in superfoods & botanicals

Natural and nutritious herbs and botanicals from nature's larder provide a healthy boost to your dog. Go Native dog food and treats contain a whole host of healthy herbs, botanicals and superfoods which combined with only the best, fully traceable ingredients helps keep your pet in tip top condition inside and out. Our foods include;

ALFALFA

BLUEBERRY

BROCCOLI

CARROT

CRANBERRY

GINGER

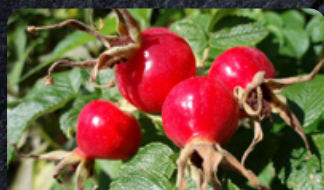

KALE

MARIGOLD

PUMPKIN

ROSEHIP

SPINACH

YUCCA SCHIDIGERA

Go Native Dog Treats

Treats and rewards are all part of a happy and fun owner and dog relationship. Now you can spoil your pet without the guilt with our Go Native dog treats in four delicious, healthy combinations that provide them with meaty, grain-free goodness to get their tails wagging.

- Meaty treats made with 30% dehydrated protein
- Grain-free, gluten-free and guilt-free treating
- No artificial colour, flavour or added sugars
- Sustainably sourced, fully traceable and 100% Irish ingredients

Go Native Dental Sticks

Treat your dog daily while treating their teeth with Go Native Dental Super Sticks. There are two healthy and tempting flavours for them to sink their teeth into to help control plaque and tartar build-up and to maintain healthy gums and teeth. A daily ritual your dog will love!

- Guilt-free treating that maintains healthy teeth
- Long-lasting chew
- Hand-picked Irish ingredients
- No artificial colour, flavour or added sugars
- Grain-free goodness

Go Native Dog Treats

Let your dog enjoy delicious meaty treats without the guilt. Our grain-free and gluten-free treats are made with the same high quality Irish ingredients as the rest of the Go Native range, so you can be sure that your pet is enjoying the cream of the crop with every bite!

Testimonials

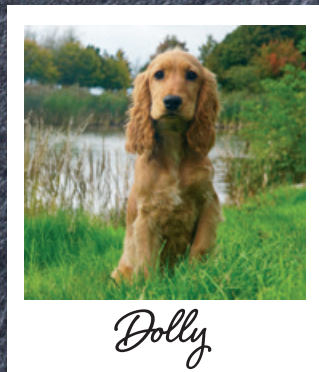

Heidi

My pooch Heidi is incredibly fussy when it comes to food, but the Go Native range from Connolly's Red Mills is the one she truly loves. Yes, she's totally spoiled — but with quality like this, who can blame her? She's worth every bite.

Buddy

My Cockapoo, Buddy absolutely loves this food; so much in fact he even accepts it as a treat! He will not eat any other kibble.

Dolly

Dolly absolutely loves the grain-free Go Native treats! The moment she smells them, she gets so excited and can't wait to have one. They're clearly her favourite — nothing else gets her tail wagging like these treats do.

Duke

My dog, Duke has always been the pickiest eater — nothing ever seemed to excite him at mealtime. Since switching to Go Native Salmon, everything has changed. Now he eagerly waits by his bowl and licks it clean every single time! It's amazing to see him enjoy his food.

Be social with Go Native

If your beloved pet loves Go Native, we'd love to hear from you! Just send us a pic or a video of him or her enjoying Go Native and you could be in to win a great pet prize!

Capture the excitement and tail wagging in anticipation of their treat or daily dental super stick — maybe your dog is looking especially cute today or simply show us how your puppy is thriving on their tasty Go Native diet?

New tricks, a little dance or an unusual pose are always irresistible and deserve to be rewarded with a delicious Go Native Meaty Treat.
