# Company information

The company history begins in 1989, and today Mealberry is a dynamic, fast growing producer that develops and manufactures high quality pet products in Germany (Treuen).

In order to guarantee the highest quality and service for our customers at a reasonable price, we adhere to a company philosophy based on four strategic pillars:

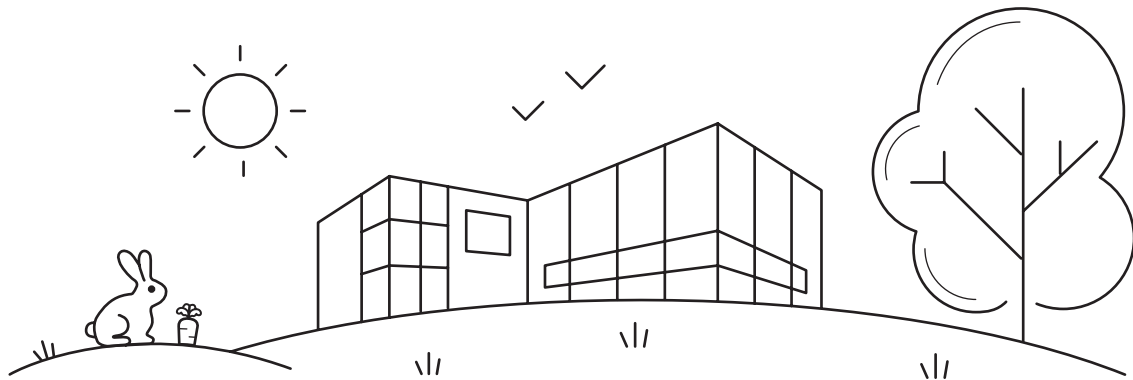

- strict quality control,
- ongoing communication and strong relations with our partners, customers, veterinarians and breeders,
- continuous product improvement and innovation,
- implementation of the latest production technology.

Bird and small mammal owners trust the quality and reliability of our brands, this is confirmed by the rapidly growing demand for Mealberry products. We value this reputation and are passionate in our aim of continuing to develop and manufacture the highest quality pet food on the market. Food loved by pets and chosen by owners.

Our diverse range of more than 170 products includes:

- RIO (feeds, treats, care products, vitamins and supplements for pet birds as well as products for feeding birds in the wild),
- Little One (feeds, treats, treat-toys, hay and care products for small mammals).

We designed this catalogue not only to provide you with a full product list, but also to highlight the key advantages of choosing our brands.

## Vibrant. Bright. Colourful

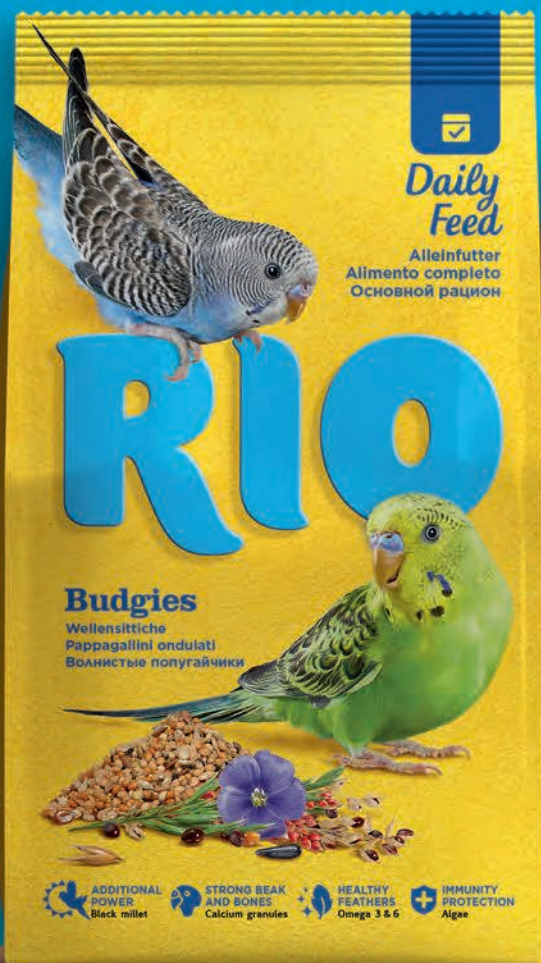

How do you imagine a parrot? Vibrant, bright, colourful... This is what the RIO brand is all about. Our mission is to bring joy to the homes of the cheerful feathered pets and their owners. This is why we select the best grains and seeds, fruits, nuts, vegetables, rare fruits, and many other ingredients all over the world and produce only products of the highest quality. We are also convinced that the most important factor in a pet's healthy and active life is the care and attention of its owner. This is why the brand's wide range includes both various feeds and specialized diets and original treats, vitamins, and supplements. Besides, the RIO range also includes products you can feed to wild birds in the streets or in a park, as they are also in need of our care.

The brand's products stand out through their acclaimed high quality and the bright packaging is easy to spot on a shelf. Bird owners and breeders appreciate the reliability of the RIO brand, which is confirmed by the steadily growing demand. We don't rest on our laurels and keep expanding and updating our range in order to make every bird's domestic life as happy as possible and to make sure that owners only get joy and the most positive vibes from engaging with their pets.

## Feed and complementary feed

RIO feed range includes feeds for a balanced daily diet of various bird species, feeds for the moulting period to ensure rapid and less painful feathers regeneration, complementary feeds which are an essential supplement during periods of growth, moulting and breeding, as well as hand feeding food for baby birds.

### RIO Daily feed for budgies

This daily feed has been developed using a special approach that takes all the nutritional needs of these small and active birds into account. The balanced composition includes black millet to maintain vitality and energy, Niger seeds rich in proteins and fats, linseed and other grains as well as seeds which are loved by budgies.

500 g - Art. 21010 EAN 4602533420711  
1 kg - Art. 21012 EAN 4602533783441  
3 kg - Art. 21013 EAN 4602533000081  
20 kg - Art. 21014 EAN 4602533786077

### RIO Moulting period feed for budgies

This is a special approach to feeding during moulting as it responds to all the needs of the budgies during this stressful period. The increased protein and fat content in the feed ensures quick and painless plumage regeneration. It also contains sesame seeds which are a great source of calcium and vitamins, as well as Niger seeds and other healthy seeds.

500 g - Art. 21020 EAN 4602533420728  
1 kg - Art. 21022 EAN 4602533783458  
20 kg - Art. 21024 EAN 4602533786084

### RIO Daily feed for parakeets

A balanced daily feed for parakeets, which perfectly suits lovebirds and corellas. This feed was developed in accordance with the nutritional needs of these active birds. Its varied content includes healthy seeds and grains that parakeets love, as well as rowanberries and carrots to help maintain healthy eyesight and skin. The feed is enriched with calcium for bone and beak strength and with linseed which contains fatty acids to support skin and plumage health.

500 g - Art. 21030 EAN 4602533781102  
1 kg - Art. 21032 EAN 4602533783465

20 kg - Art. 21044 EAN 4602533786107

## RIO Daily feed for conures and quakers

This daily feed for conures and quakers was specially developed to cover all nutritional needs of these bright and lively pet birds. The rich and varied composition ensures a diverse and delicious diet that mirrors the birds' natural habitat rations. The feed contains tropical fruits, vegetables, nuts, healthy seeds and berries.

1 kg - Art. 21252 EAN 4260559180363

## RIO Daily feed for parrots

A balanced daily feed for large parrots which covers all the nutritional needs of these bright and lively birds. The rich and varied composition mirrors the birds' natural diet and includes dried fruits, vegetables, nuts, puffed seeds, rare fruits and berries. The feed also includes chilli which is a special treat for large parrots as it helps detox the body.

500 g - Art. 21060 EAN 4602533781133

1 kg - Art. 21062 EAN 4602533783489

### RIO Daily feed for canaries

A specially balanced daily feed that includes healthy grains and seeds, which are particularly selected to suit the small beak of these tiny songbirds. The feed's formula consists of canary seed — the natural food of the canaries, millet, rapeseed, Niger seeds and linseed. It is enriched with calcium for stronger bones and beaks, the feed also contains algae to maintain a healthy immune system.

500 g - Art. 21070 EAN 4602533781126  
1 kg - Art. 21072 EAN 4602533783496  
20 kg - Art. 21074 EAN 4602533786121

### RIO Moulting period feed for canaries

A special approach to canary feeding during moulting which responds to all of the birds' needs during this stressful period. The increased content of proteins and fats in the feed ensures a quick and painless plumage regeneration. It contains linseed, which is rich in calcium and vitamins, as well as algae to maintain a healthy immune system.

500 g - Art. 21080 EAN 4602533781409  
20 kg - Art. 21084 EAN 4602533786138

### RIO Daily feed for exotic birds

A carefully balanced daily feed for finches, wax-bills and other weaver species. This feed was developed in accordance with the preferences and the typical diet of exotic birds in their natural habitat. The feed contains 15 healthy ingredients, including red and yellow panicum, white millet, Niger seeds, linseed, as well as black millet and sesame seeds to help maintain strength and energy.

500 g - Art. 21100 EAN 4602533781393  
1 kg - Art. 21102 EAN 4602533783519  
20 kg - Art. 21104 EAN 4602533 786145

### RIO Daily feed for wild birds

A daily feed for goldfinches, siskins, and other wild birds. The varied composition mirrors the natural diet of these active birds and contains thistle, flax and Niger seeds. Milk thistle and perilla, rich in essential oils, help detox the body and support the wild birds' health.

500 g - Art. 21110 EAN 4602533781416

20 kg - Art. 21114 EAN 4602533786152

### RIO Hand feeding food for baby birds

It is a complete nutrient-dense hand feeding food, specially formulated to meet the energy requirements of birds from hatching through to weaning. The nutrient rich formula helps baby birds grow strong and healthy, and develop a bright, fine plumage.

400 g - Art. 21240 EAN 4602533000128

100% natural ingredients

# Complementary feed

In order to stay healthy and have a complete diet, birds need a whole range of nutrients, including proteins, amino acids, vitamins and minerals. To provide this variety, it is important to offer your feathered friend some supplements alongside the main feed.

Immunity protection

Energy & vitality

Extra care

## RIO Eggfood for budgies and small birds

RIO eggfood is produced from whole eggs with the addition of honey, vitamins and minerals. A combination of biotin and amino acids helps the bird have healthy plumage. Rich in vitamins and other nutrients, RIO eggfood is an indispensable supplement during periods of growth, moulting, breeding, and whenever a weakened bird needs to grow its strength.

250 g - Art. 21190 EAN 4602533786466  
18 kg - Art. 21192 EAN 4602533786619

## RIO Eggfood for parakeets and parrots

Multi-coloured extruded bits of food are oven-baked using a special technology to make them that crunchy texture that parakeets and parrots love so much. The special ingredients such as chilli, spirulina and turmeric root are natural colouring agents and give the food bits their enticing and vibrant colour, while at the same time they make the food especially healthy and good for parakeets and parrots. Some crunchy delights for your feathered friend!

250 g - Art. 21200 EAN 4602533786473  
18 kg - Art. 21201 EAN 4602533786589

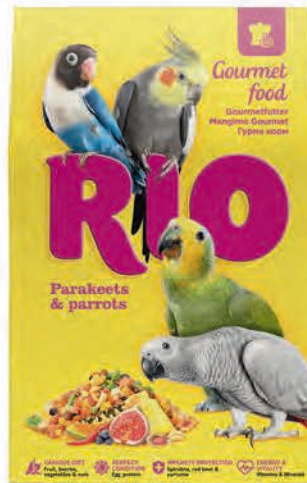

## RIO Gourmet food for budgies and small birds

This is a sophisticated, rich feed which contains a whole bunch of delicious and nutritious ingredients. Easily digestible proteins, healthy fats and fatty acids contained in whole eggs, dry insects and gammarus help keep the bird's body in top shape. Fruits and berries (pineapple, papaya, rowan and juniper berries) contribute to a varied diet, while yeast extract boosts the immune system defences. The feed also contains added delicious and fragrant coriander seeds.

250 g - Art. 21210 EAN 4602533786480  
18 kg - Art. 21212 EAN 4602533786602

## RIO Gourmet food for parakeets and parrots

Both parakeets and parrots will be sure to appreciate the large and crunchy bits in this feed. The fruits, berries, vegetables and nuts that it contains will bring variety to the bird's diet. Egg white helps maintain the bird's body in top shape, while vitamins and minerals provide an extra boost of energy and strength, chilli, spirulina and turmeric root give an enticing colour to individual slices and make them a special delight for parakeets and parrots.

250 g - Art. 21220 EAN 4602533786497  
18 kg - Art. 21221 EAN 4602533786596

## RIO Germination set

Germinated seeds and grains are a perfect alternative to seeds in a milky-wax stage, which make up the diet of the birds in natural environment. In comparison with a regular seed mixture, germinated seeds are full of enzymes, vitamins and minerals, which can help avoid the negative effects of unbalanced nutrition. Specially designed RIO Germination set includes everything that is needed for germination at home and makes the process easy and fun for every pet bird owner.

25 g - Art. 21230 EAN 4602533786565

-  Great variety of the birds' favourite treats
-  Promotes natural behaviour
-  Best ingredients for a balanced diet
-  Sticks with a hard beech rod for beak care
-  Oven-baked sticks with an excellent taste and a crunchy texture
-  The best from nature for your pet

## Treats and treat-toys

The RIO treat range contains 27 different products developed to meet the nutritional needs and preferences of parrots, canaries, budgies and other bird species. Treats and treat-toys will help the owners express their love to pet birds, encourage their playing and training and bring variety to their diet.

# Sticks

The RIO stick range contains 12 different flavours developed based on the nutritional needs and preferences of parrots, canaries, exotic birds and other bird species. Each stick contains up to 23 ingredients, including cereals and seeds, fruits, nuts, berries, and other delicious and healthy components. The unique production technology helps RIO sticks retain their excellent taste and crunchy texture, making them a favourite treat of all pet birds.

## Biscuits

RIO biscuits are a tasty and nutritious supplement to the main diet of all bird species. Produced from eggs and cereals, they have a crispy texture and will help pet parents express their love to their pets, encourage them and bring variety to their diet.

## Treat-toys

Treat-toys encourage birds to engage in their natural behaviours and add variety and fun to the process of feeding the active feathered pet.

### RIO Sticks for budgies and exotic birds with tropical fruit

# Treats in jars

8 SKUs of the most popular bird treats. Each product is a delicious treat that will excite your pet bird and help to enrich its daily diet.

## RIO Healthy seeds mix

The healthy seeds mix includes a variety of garden seeds, vegetables and field crops that greatly enrich the bird's daily diet, maintain its well-being and augment digestion.

240 g - Art. 22220  
EAN 4602533000135

## RIO Wild seeds mix

The wild seeds mix is a tasty and healthy treat, which contains a variety of seeds that are the nutritional basis of many bird species in the wild. The blend consists of 16 healthy ingredients that maintain vitality and enrich the daily diet.

240 g - Art. 22230  
EAN 4602533000159

## RIO Niger seeds

Niger seeds are a favourite treat of budgies, cockatiels, lovebirds, canaries and all types of weavers. The seeds are rich in nutrients, proteins and fats, which are essential to maintain the bird's well-being and energy level. With regular use, the condition of the skin and feathers will improve and during the seasonal moulting the regeneration process will be easier and faster.

250 g - Art. 22010  
EAN 4602533781683

## RIO Songbird mix

The songbird mix contains carefully selected ingredients which songbirds enjoy in the wild. This treat is rich in vegetable proteins, polyunsaturated acids, vitamins, minerals and biologically active natural substances. This delicious nutritional composition is a source of energy and well-being that encourages your bird to sing.

240 g - Art. 22240  
EAN 4602533000173

## RIO Fruit and berry mix

Fruit and berry mix is a vibrant and tasty treat for budgies. It includes naturally dried cranberry, apple, orange, banana, raisins, and elderberries, enriching the birds' diet with vitamins and boosting energy. It's a delicious way to build trust and strengthen bonds with pet bird.

180 g - Art. 22330  
EAN 4260559182442

## RIO Vegetable mix

Vegetable mix is a natural and varied treat for parakeets and parrots that offers an excellent source of fiber and vitamins. It's an easy and nutritious way to add vegetables to the menu and support your feathered pet's health.

150 g - Art. 22350  
EAN 4260559182480

## RIO Berry mix

Berry mix is an appetizing blend of ripe berries rich in vitamins and antioxidants. This healthy and tasty treat contains rowan, mulberry, chokeberry, cranberry, juniper, cherry, and blackcurrant, which will delight parakeets and parrots and diversify their daily diet.

190 g - Art. 22340  
EAN 4260559182466

## RIO Fruit and Nuts mix

The Fruit & Nuts mix includes naturally dried fruits, crunchy nuts, berries and seeds that are liked by parakeets and parrots. This treat is an excellent source of additional energy, vitamins, macro- and micro-elements and brings variety to the bird's daily diet. The individual ingredients can also be used to encourage your pet to learn new skills and build up a trusting relationship with them.

160 g - Art. 22250  
EAN 4602533000197

# Natural treats

Nature itself has inspired us to create our natural treats, which feathered pets would be able to come across in their natural habitat regularly. The main purpose of each treat is to encourage the pet birds' natural behaviour, making their leisure more exciting and to bring joy to their lives.

## Wild bird feeding

Feeding birds in the wild means helping them during hard times by offering additional nutrition when food in their natural habitat is lacking. Feeding wild birds is a part of wildlife care and supports biodiversity.

### RIO Spray millet for birds

Spray millet is a favourite treat and toy for parakeets, canaries, amadinas and other kinds of birds. Similar to wild birds in nature, caged birds take great pleasure in plucking the fresh grains from the panicles. Due to the natural preservation in the thin husk, grains from ears are better digested by birds. RIO Spray millet is hand-picked, carefully dried and stored in a controlled environment, which guarantees freshness and nutrition.

100 g - Art. 22070 EAN 4602533782765

### RIO Sorghum sprays

Sorghum sprays are a nutritious natural treat for parakeets and parrots. Hand-picked and expertly dried panicles encourage natural foraging behaviour and provide an engaging feeding experience. Sorghum is perfect for playing and helps to prevent boredom.

3 pcs - Art. 22080 EAN 4260559182336

### RIO Cedar cone

The cedar cone is an excellent treat and toy for parrots and other birds. By cracking the pine nuts, the birds will get healthy nutrients from them. Pine nuts are rich in antioxidants, vitamins and minerals. The RIO cone has been dried using a special technology which reduces the resin content. The treat comes with a handy chain and holding clasp.

1 pcs. - Art. 22060 EAN 4602533782130

### RIO Fat balls

Fat balls are produced from animal fats, seeds and nuts and are suitable for feeding tits, finches and other wild birds throughout the year when food is lacking. The fat ball is in a net, which can be easily placed on a tree branch or the balcony. Besides, this net will not allow sparrows, pigeons and crows to take the food away from other birds.

90 g - Art. 21130 EAN 4602533782178

3 x 90 g - Art. 21131 EAN 4602533 782260

12 pcs. - Art. 21132 EAN 4602533783014

### RIO Sunflower seeds

Sunflower seeds are a great natural treat for birds. They are rich in protein and fats, which makes them a perfect nutritional source. The seeds are excellent for feeding pets and filling feeders outdoors.

1 kg - Art. 21141 EAN 4260559182152

### RIO Peanut net

Peanuts are rich in proteins and fat. They are an excellent source of nutrition for wild birds. It's easy to fasten the net in tree branches or on the balcony. Besides, serving the peanuts in these special nets won't let the city's birds (sparrows, pigeons and crows) take them away from other kinds of birds like tomtits, bullfinches, chaffinches, buntings and others.

150 g - Art. 21122 EAN 4602533786312

4 x 150 g - Art. 21121 EAN 44602533784745

Strong beak and bones

Healthy feathers

Immunity protection

Energy all year round

Natural source of minerals

## Vitamins and supplements

A daily consumption of vitamins and minerals is very important to keeping your bird healthy and active. Special supplements can enrich your pet's diet with the necessary vitamins and minerals as well as have a positive impact on their digestive system.

# Vitamins and supplements

The RIO range offers 6 SKUs of vitamins and minerals products, which aim to support the pet birds' health and well-being. Our special supplements will enrich your pet's diet with the necessary vitamins and minerals as well as have a positive impact on their immune system and they will improve skin and plumage condition.

## RIO Grit mixture for digestion

The Mineral mixture is a multi-component mixture of organic and inorganic particles, which grind down food in the stomach of the birds, remove toxic substances from their bodies and serve as an additional source of calcium, phosphorus, sodium and other mineral substances.

520 g - Art. 23010 EAN 4602533781423  
4 kg - Art. 23011 EAN 4602533782406

## RIO Mineral stick for all types of birds

The Mineral stick is a new way to offer your pet vital minerals like calcium and phosphorus, needed by birds on a daily basis to maintain healthy bones and beaks, to support the water-salt balance in the bird's body, and to ensure a proper functioning of the digestive tract. The firm texture of the stick will help the bird groom and polish its ever-growing beak.

1 pcs. - Art. 23040 EAN 4260559180134

### **RIO Vitamin and mineral pellets for budgies and parakeets**

The Vitamin and mineral pellets include a special complex of essential vitamins and micro- and macro elements for the ultimate nutrition and health of the birds. When used on a daily basis, the complex eliminates the symptoms and adverse effects of an unbalanced diet. It helps support the immune system, improve eye sight, skin condition and plumage.

120 g - Art. 23060 EAN 4602533786633

### **RIO Vitamin and mineral pellets for canaries, exotic birds and other small birds**

The Vitamin and mineral pellets include a special complex of essential vitamins and micro- and macro elements for the ultimate nutrition and health of the birds. When used on a daily basis, the complex eliminates the symptoms and adverse effects of an unbalanced diet. It helps support the immune system, improve eye sight, skin condition and plumage.

120 g - Art. 23070 EAN 4602533786640

*Energy  
all year round*

### RIO Sepia shell, size M

Sepia shell (cuttlefish bone) needs to be added to the diet of all types of birds as an essential source of calcium and other minerals. Sepia shell helps strengthen the birds' beak, bones and plumage and it increases the eggshell density. Being mildly abrasive, sepia shell also helps the birds groom and polish their beaks in a gentle way. The medium-sized Sepia shell is perfect for budgies, parakeets and small birds.

1 pcs. - Art. 23080 EAN 4260559180035

### RIO Sepia shell, size XL

Sepia shell (cuttlefish bone) needs to be added to the diet of all types of birds as an essential source of calcium and other minerals. Sepia shell helps strengthen the birds' beak, bones and plumage and it increases the eggshell density. Being mildly abrasive, sepia shell also helps the birds groom and polish their beaks in a gentle way. The extra large-sized Sepia shell is perfect for parakeets, parrots and if there are a number of birds sharing a cage.

1 pcs. - Art. 23051 EAN 4260559180059

## Care products

Natural products for cleanliness and freshness in all bird cages.

## Accessories

Products that have been specially designed for the new pet parents to make the process of getting a new pet easier and more comfortable.

### RIO Bird sand with seashells and eucalyptus extract

Sterilized at temperatures above 1.200 °C, RIO sand with eucalyptus extract is the perfect way to maintain the cage clean and fresh. It is effective to prevent bacteria and parasites (red mites, feather mites and lice) multiplying on the birds' bodies. The added pieces of oystershells serve as a source of calcium and other minerals.

2 kg - Art. 23030 EAN 4602533783113

### RIO Cardboard pet carrier

A colourful and handy carrier specially designed for safe and comfortable transportation of birds from the pet shops to their new loving homes. It is comfortable and safe for the feathered pets thanks to the thick three-layered corrugated cardboard, it offers lots of ventilation holes as well as a flat bottom. The box has a wide handle for comfortable carrying which makes transportation convenient for the new pet parents.

Carefully selected hay from eco-friendly areas

Bathing sand for gentle care and a glossy look

Soft wood chips for comfortable bedding

Secure cardboard pet carrier for the pet's comfort

## Hay, care products and accessories

Little One products are intended to take special care of the pets. Carefully developed and manufactured, our products will help create excellent conditions for the pet's life, filling it with joy and happiness.

# Hay

Little One Mountain hay is made from naturally grown sundried grass. It makes up the major part of the diet of all herbivorous pets: rabbits, guinea pigs, chinchillas and degus. Therefore, it is important to ensure its constant availability in the cage. You can add Little One "Green valley" feed as a supplement to any hay to diversify its botanical composition.

## Little One Hay roll with aromatic cornflower

This roll combines fragrant meadow hay with delicate cornflower petals. Long fibers support natural dental care, while the compact format keeps cages tidy and makes nibbling enriching and fun.

100 g - Art. 33100 EAN 4260559181582

## Little One Hay roll with sweet red pepper

This product offers aromatic meadow hay in a convenient format, topped with the crunchy pepper pieces. Its long fibers promote daily dental care, and the neat format provides mess-free, satisfying nibbling activity.

100 g - Art. 33110 EAN 4260559182824

### Little One Mountain hay

Mountain hay is loose and not pressed to keep the freshness and quality of the sundried grass and to make it more convenient to use. This hay has a rich botanical diversity and is a source of essential fiber necessary for the dental health and a proper digestion. Besides, hay can perfectly serve as bedding and entertainment, as your pets can burrow through and build nests from it.

400 g - Art. 33090 EAN 4602533785452  
1 kg - Art. 33091 EAN 4602533785469

### Little One Mountain hay with camomile

Camomile reduces flatulence, normalizes the functioning of the gastrointestinal tract and has a mild anti-inflammatory effect.

400 g - Art. 33050 EAN 4602533783403

### Little One Mountain hay with dandelion

Dandelion has an analgesic, anti-inflammatory, sedative effect and provides a positive impact on the cardiovascular system, liver and kidneys.

400 g - Art. 33040 EAN 4602533783410

## Care products

Little One care products ensure hygiene and comfort.

## Accessories

Products that are specially designed for new pet parents to make the process of getting a new pet easier and more comfortable.

### Little One Wood chips

Wood chips are a hygienic bedding and litter for all types of small pets. This natural product made of pure wood is highly absorbent and doesn't contain dust.

800 g - Art. 33060 EAN 4602533783380

### Little One Bathing sand

This bathing sand is the perfect way to take care of your pet's fur hygiene. Soft smooth sand granules give the thick fur of chinchillas, degus, hamsters and gerbils a thorough cleanse whilst gently removing condensed water and oil. Little One bathing sand does not scratch the fur and makes it look luxurious and glossy.

1 kg - Art. 33010 EAN 4602533782239

### Little One Cardboard pet carrier

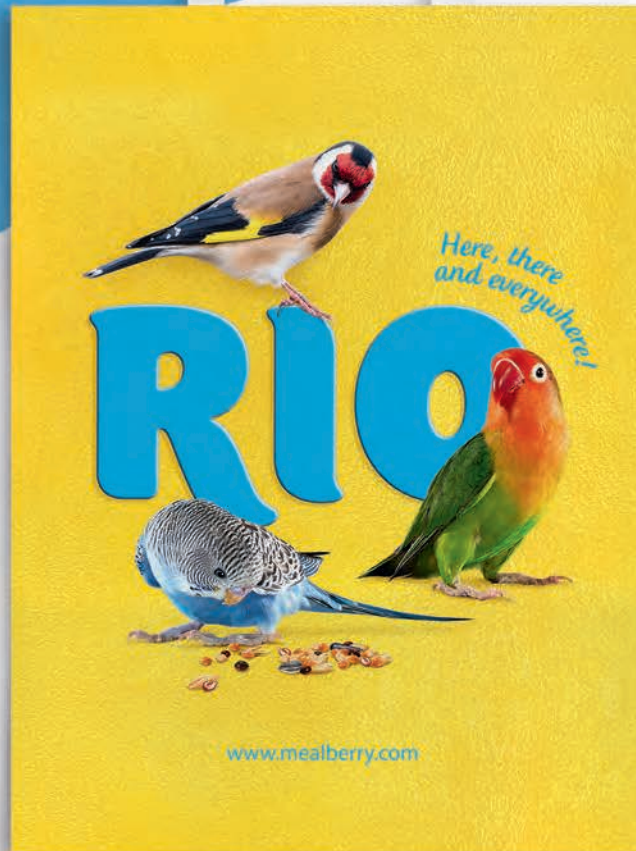

Cardboard carriers are specially designed for comfortable and safe transportation of small mammals from the pet store to a new loving home. The carriers are made of thick three-layered corrugated cardboard for maximum safety, they have many ventilation holes for oxygen access and a flat bottom to prevent injury.

1 pcs. - Art. 1001 EAN 4602533000746
