FEEDING YOUR DREAM

Retail/Product Range

Version 2025/1

At Equilannoo, we share your passion for horses and strive for the very best for both riders and horses each and every day. For more than 120 years, we have been developing safe, healthy horse feed and supplements to help you and your faithful four-legged friend achieve your dreams. But our mission goes beyond feed alone. We want to strengthen the unique bond between you and your horse.

Our many years of experience and self-developed innovative products have helped us set a whole new standard. Thanks to our dedicated team and R&D department that is always thinking ahead, we offer an extensive range of top-quality products tailored to the specific needs of every horse. At Equilannoo, you not only get the best feed, but are also investing in your horse's health and happiness, and the joy of your shared adventure.

Feed & care for all horses at all times

As a total supplier, we have everything you need, from feed and supplements to grooming products and roughage. In other words, Equilannoo offers you complete one-stop shopping – because your customers and their horses deserve the best possible service.

The certainty of healthy feed

Discover our retail-ready approach!

Equilannoo is here to help with advice, support and POS materials to boost your sales. From shelf stoppers and shelf strips to pallet covers and personal advice, our experts provide you with practical guidance in our one-stop shop when it comes to horse feed and performance testimonials.

Longer shelf life thanks to nitrogen packaging

Our mixtures with a high vegetable oil content come in airtight packaging filled with nitrogen. This innovative method makes it more difficult for pests like weevils to enter the feed and keeps it fresh longer, ensuring that you and your horses always have a safe and hygienic product of the very highest quality.

Clear and multilingual communication for the best customer experience

We fully understand the importance of clear communication in helping customers choose the right horse feed. That is why we maintain a strong focus on market needs. Our packaging serves as a practical buying guide and offers detailed information in no fewer than 11 languages.

What makes Equilannoo unique?

SUGAR CONTROL

EquiSweet

EquiSweet is a unique, healthy liquid that contains sugars with a low glycemic index. This means that the energy from these sugars is released slowly and gradually in the body. **As a result, EquiSweet forms a stable and long-lasting energy source** instead of a short, fast spike.

EquiSweet also has a **strong binding ability**. This gives the feed to which it is added an even and consistent texture.

An important advantage of EquiSweet is its effect on insulin production in horses. Because energy is released slowly, there is no sudden spike in the insulin level in the blood (also known as an insulin spike). This makes it a **healthier choice for horses** because the blood sugar level remains more stable.

As a result, EquiSweet contributes to **better absorption of feed, consistent product quality** and a **healthy energy balance** in horses.

Our patented Linamix®

Linamix® is a **grain-free** extruded supplement that is specially designed to support good horse health. It contains linseed, a **rich source of omega-3 fatty acids**, which contributes to **healthy skin, a glossy coat, fertility** and **good intestinal health**. The extrusion process ensures that Linamix® can be safely fed to horses without any extra preparation.

The supplement also contains chicory, which provides inulin (a prebiotic). Inulin supports healthy intestinal flora by feeding good bacteria like lactobacilli and helps lower the pH level in the intestines. This limits the growth of such harmful bacteria as E. coli and salmonella.

Linamix® also contains slow sugars (EquiSweet) for a stable energy supply and powerful antioxidants like vitamin E and organically bound selenium. These ingredients reduce oxidative stress, support muscle recovery during intensive training and protect the omega-3 fatty acids in linseed.

In other words, Linamix® is a **complete nutritional** supplement that, when added to the daily ration, **contributes to the overall health and performance** of horses.

EQUILANNOO

FEEDING YOUR DREAM

Allround sportmix

Active Mix is een geëquilibreerde mengeling zonder haver, speciaal ontwikkeld voor sport- en recreatiepaarden en pony's. Door de uitgebalanceerde samenstelling krijgen de paarden of pony's voldoende energie en voedingsstoffen binnen. Het voeder steeds licht, droog en donker bewaren.

Active Mix est un mélange équilibré sans avoine et complément en grains de lin inclus. Il est spécialement formulé pour les chevaux et poneys de sport et de loisir. Grâce à sa composition équilibrée, les chevaux et les poneys reçoivent suffisamment d'énergie et de substances nutritives. Toujours conserver les aliments au frais, au sec et à l'abri de la lumière.

Active Mix is a feeded mix without oats, specifically formulated for sport and recreational horses and ponies. Thanks to its balanced composition, horses and ponies receive sufficient energy and nutrients. Always store the feed in a cool, dry and dark place.

Active Mix ist eine Flockenmischung ohne Hafer, die speziell für Sport- und Freizeitpferde und -ponys entwickelt wurde. Dank der ausgeglichenen Zusammensetzung erhalten die Pferde oder Ponys ausreichend Energie und Nährstoffe. Das Futter immer kühl, trocken und dunkel lagern.

Active Mix er en valert blanding uden havre, specielt udviklet til sport- og fritidstejere og -ponyer. Som følge af den afbalancerede sammensætning får hestene eller ponyerne en tilstrækkelig mængde energi og næringsstoffer. Opbevar altid fodret koldt, tørt og mørkt.

Active Mix er en mältiblandning utan havre som har utvecklats särskilt för tävlings- och ridhästar och -ponnyer. Tack vare den välbalanserade sammansättningen får hästarna eller ponnyerna i sig tillräckligt med energi och näringsämnen. Förvara alltid fodret på en sval, torr och mörk plats.

Active Mix es una mezcla en copos sin avena, desarrollada específicamente para caballos y ponis de deporte y ocio. Gracias a su composición equilibrada, los caballos o ponis reciben suficiente energía y nutrientes. Mantenga siempre el pienso en un lugar fresco, seco y oscuro.

Active Mix è una miscela a flocchi senza avena appositamente studiata per cavalli e pony sportivi e da diporto. Grazie alla composizione equilibrata, cavalli e pony ottengono tutta l'energia e i nutrienti di cui hanno bisogno. Conservare sempre il mangime in luogo fresco, asciutto e non illuminato.

Active Mix هو خليط من الحبوب دون حبوب القمح، مصممًا خصيصًا للخيول والponies الرياضية والترفيهية. بفضل التركيبة المتوازنة، تحصل الخيول والponies على الطاقة والمواد الغذائية التي تحتاجها. يجب دائمًا تخزين العلف في مكان بارد وجاف ومظلم.

Active Mix to mieszanina w postaci musli, niezawierająca owsa, specjalnie przygotowana dla koni i kucyków sportowych i do jazdy rekreacyjnej. Dzięki zbilansowanemu składowi konie i kucyki otrzymują odpowiednią ilość energii i substancji odżywczych. Przechowywać paszę w chłodnym, suchym i ciemnym miejscu.

Az Active Mix egy pelyhesített zabmentes keverék, amelyet sportos és szabadidős lovak és ponyvák számára fejlesztettünk ki. Kiegyensúlyozott összetételének köszönhetően a lovak és a ponyvák eleget energiát és tápanyagot kapnak. Mindenképp tárolja a takarmányt hűvös, száraz és sötét helyen.

The certainty of healthy feed

What is the Heating Effect?

HEATING EFFECT

The Heating Effect is a scale that indicates how a specific horse feed affects the horse's temperament:

- 0: Neutral, no effect on temperament.
- -1: Slightly calming.
- 1, 2, 3: Stimulating, with higher numbers for a stronger effect.

This indicator helps when choosing the right feed, depending on the desired energy level and temperament of the horse.

Horse Feed

At Equilannoo, we fully understand the importance of the right feed for the health and performance of your horse. Whether you are looking for feed for sport horses, recreational horses or horses with specific nutritional needs, we offer an extensive range that meets the highest quality standards. Our feeds are carefully formulated by experts, with a focus on the right balance between essential nutrients and the unique needs of each individual horse.

Breeding

A healthy start begins with the right feed. The Breeding range from Equilannoo is designed to support the nutritional needs of pregnant mares, foals, and young horses ages one to three years.

What is OS Complex?

OS Complex is a specially developed mixture of the minerals copper, zinc and manganese in the ideal ratios and easily digestible form. This complex **supports the healthy development of joints, cartilage, tendons, and the skeleton system in horses.**

WHY IS THIS IMPORTANT?

OC (osteochondrosis) and OCD (osteochondritis dissecans) are joint disorders that can cause pain and functional issues. These often develop in foals due to a disturbance in the conversion of cartilage to bone. Apart from heredity, movement, and injuries, diet also plays an important role in preventing these disorders.

HOW DOES OS COMPLEX HELP?

OS Complex promotes a healthy mineral balance in feed, which is essential for the healthy development of foals and young horses. This balance reduces the risk of OC and OCD considerably.

NUTRITIONAL ADVICE

- **Pregnant mares:** Use **Breeding Cube** or **Mix** during the last three months of gestation and during lactation.
- **Foals:** Give **Starting Cube** from three months of age.
- **Young horses:** Give **Junior Cube** or **Mix** until the age of two years.

OS Complex is an important addition to these feeds that helps **optimize the health and development of young horses.**

Performance

The Performance line from Equilannoo is unrivalled.

A reliable feed for high-performance horses and their riders

Our exclusive Performance line provides the ultimate support for horses that perform on the very highest level. This unique feed is specifically tailored to all aspects of performance. The proof? The riders and horses that rely on it compete every four years for the ultimate Olympic medal.

What makes Performance so unique?

1. COMPREHENSIVE SUPPORT

These products are complete and reduce the need for supplements considerably. They ensure:

- Better intestinal health: essential for optimal digestion and absorption.
- Better liver function: for an efficient metabolism and detoxification.
- Vitamin enrichment: a high dose of natural antioxidants combats free radicals and promotes recovery.

2. PROTECTION AGAINST MYCOTOXINS

Mycotoxins, toxic substances produced by fungi (in roughage, for example), can adversely affect horse health and performance. The Performance line contains mycotoxin binders that bind these harmful substances and prevent their absorption.

3. HIGH-QUALITY FIBER FOR TOP PERFORMANCE

We only use fibers with the best digestibility, which in turn helps horses stay in top condition. Thanks to a low content of rapidly digestible carbohydrates, horses remain energetic and healthy, without overloading the digestive system.

Performance

Supports digestion

Natural antioxidants

Special acid buffers

Performance Mix

Energy mixture with slow energy release for performance on the highest level

Performance Mix is a premium mixture with a low sugar and starch content that contains all the additives needed to support a healthy digestive system and deliver absolute top performance.

Care

A close-up photograph showing a person's hands applying a product from a white plastic bottle with a brush applicator to a horse's hoof. The person is wearing blue riding breeches and black leather boots. The horse's leg is visible, and the hoof is being held steady. The background is a dark, textured surface, possibly a metal grate. The overall scene is set against a dark purple background with a light pink curved shape on the left side.

Caring for your horse involves more than just providing proper feed. At Equilannoo, we offer a wide range of care products that not only help your horse look great, but also contribute to its well-being.

100% natural

With essential oils

Easy to use

Easy Brush

For a lasting shine

Easy Brush is an anti-clumping and shine agent for horses. It contains lavender and lemon tea tree. It also strengthens and cares for hair, neutralizes static, and results in a high shine after brushing. Easy Brush lasts five to seven days.

Use: It is highly recommended to brush the horse thoroughly before use. Spray an even layer over the coat and then brush with a soft brush. Store in a dry place. Close the packaging carefully after each use.

500 ml

Natural ingredients

With essential oils

Easy to use

Hoof Care

For complete hoof care

Hoof Care nourishes and cares for hooves using pure ingredients. This hoof emulsion, which contains beeswax, lanolin, and essential oils of thyme, rosemary, and laurel, together with MSM, has a purifying, protective and soothing effect. The unique combination of natural ingredients supports the growth of the keratin, promotes hoof elasticity, and strengthens soft hooves.

Use: Clean hooves thoroughly before use. Apply daily to both the outside and inside of the hoof, using a brush if necessary. Store in a dry place. Close the packaging carefully after each use.

500 ml

Natural ingredients

With essential oils
